Hillsborough, NJ 08876

Administration and management: Validation experience includes steam, dry heat, ethylene oxide, and irradiation sterilization, terminal sterilization, aseptic processing, and retrospective product validation. Extensive microbiology experience including laboratory management, experimental design, data analysis, report writing, bioburden programs, and D-value determinations. Prepared numerous validation protocols and reports, standard operating procedures, and publications. Computer experience spans 15 years and includes word processing, spreadsheet, graphics, database management, programming, accounting, utilities, and hardware and software evaluation and installation.

EXPERIENCE

BMG Consulting, Hillsborough, NJ - (7/96 to present) - Pharmaceutical Consultant - Provide consulting services to pharmaceutical companies covering a variety of areas, including validation, sterilization, aseptic processing, CGMP inspection, document preparation and/or review, and problem solving.

PACK 'N' MAIL Mailing Center, Temecula, CA - (10/90 - 7/96) - Owned and operated mailing center business with two locations in southern California. Responsible for hiring and firing, ordering, payroll, accounts payable, and receivable, and other accounting functions associated with the operation of a business. Business services included packing and shipping, public fax, photocopy service, notary public, retail sales, electronic tax filing, and computer services including database management and word processing.

Bristol-Myers Squibb New Brunswick, NJ - (3/80 - 5/90)

Validation Microbiologist, Worldwide Validation Department (3/81 - 5/90) - Supervised the microbiological functions of the department including laboratory staff. Developed experimental designs and analyzed data. Conducted D-value determinations, pyrogen testing, developed bioburden programs, and bacterial identification. Prepared validation protocols and reports for assigned projects worldwide. Prepared laboratory procedures for worldwide usage. Provided technical guidance, support, and/or training on microbiological related subject on a global basis. International travel assignments included Germany, Egypt, Greece, Italy, and Puerto Rico. Provided hardware and software support within the department for personal computers including selection, purchase, installation, and training.

Bacteriologist, Quality Control Department - (3/80 - 3/81) - Conducted compendial testing of sterile and non-sterile products.

E. Barry Gordon, M.D., P.C., Brooklyn, NY - Office Manager. Duties included accounting, patient billing, insurance billing, payroll, patient appointments, laboratory tests, EKG's, general medical assistance, and receptionist functions. (4 years)

Michael Reese Hospital and Mount Sinai Hospital, Chicago, IL - Clinical Microbiologist (3 years)

EDUCATION

Master of Science, Microbiology, Rutgers University, New Brunswick, NJ - (Grade Point Average 4.0)

Bachelor of Science, Medical Technology, Fairleigh Dickinson University, Teaneck, NJ

PROFESSIONAL AFFILIATIONS

Parenteral Drug Association (PDA) (1981-1990, 1996-present)

Chairman, Microbiology Subcommittee (1985)

Microbiology Subcommittee (1983-1990)

Chairman, Radiation Sterilization Task Force (1982-1988)

Research Committee (1985)

Program Committee (1981-1985, 1990)

Society for Industrial Microbiology (SIM) (1981-1990)

American Society for Microbiology (ASM) (1980-1990)

Theobald Smith Society (New Jersey Branch of ASM) (1976-1990)

American Society of Clinical Pathologists (ASCP), registered Medical Technologist
